You've been high, you've been low, You lost me a long time ago. Endless times, I've been showed How to make a letter Turn to stone.

It's all about looking for trouble Staying on top, down in the gutter. It's all about living on th edge To take the pledge of being ROCK-N-ROLL!

One day it's gonna fall apart It's no longer a work of art. Don't let that moment pass you by...

I can sense a lie
From a million miles.
(Whoooohooo)
I can sense a lie
From a million miles.
(Whoooohooo)
I can sense a lie
From a million miles.

I can sense a lie
From a million miles.
