

Idiots

Crashdiet

I'm sick of the lectures
The social fucking pressures
Sick of being unsatisfied
The haters, the fakers
The energy takers
We only see the perfect side

I cannot take it anymore
I cannot hide

We're all idiots
It's all a lie, a big fat lie
We're all idiots
There ain't nothing wrong with me

I'm rigid and stubborn
And no one's gonna tell me
How to fucking live my life
Persistence, devotion
A blizzard of emotion
Someday I'm gonna prove I'm right

I cannot take it anymore
I cannot hide

We're all idiots
It's all a lie, a big fat lie
We're all idiots
There ain't nothing wrong with me
There's nothing wring with me

Take a deep breath if you dare
Enjoy your life without despair
Unplug your systematic self

I am something
I'm the best
I don't care if I pass your test tonight
'Cause it don't mean spit to me
Don't mean spit to me

Hey!

I cannot take it anymore
I cannot hide

We're all idiots
It's all a lie, a big fat lie
We're all idiots
There ain't nothing wrong
We're all idiots
It's all a lie, a big fat lie
We're all idiots
There ain't nothing wrong with me
