As night draws near, you hear a familiar song
And it was clear you could feel something was wrong
Your body's stiff as fear wells up inside your bones
As something comes back for you while you were all alone

In the distance you can hear the melody
The faintest whisper of ghastly cacophony
The dark carnival is coming back to town
To bewitch your soul with its sights and sounds

You wake up screaming
Frightened by memories
You're plagued by nightmares
Doomed to haunt all your dreams
You barely survived, escaped our last show
Once you're in, oh we'll never let ya go!

So much to see, you will not believe your eyes
There's no escape, there's no place left to hide
Once ya let us in we will never truly leave
And we will be with you until you cease to breathe

You wake up screaming
Frightened by memories
You're plagued by nightmares
Doomed to haunt all your dreams
You barely survived, escaped our last show
Once you're in, oh we'll never let ya go!
I'll never let ya go
I'll never let ya go

Is it fate or madness
That's luring you back home
From the gates
The darkness seeps back into your bones
Fade to black
You have been ravenous for something new
Welcome back
We have so many things to show you
You won't know what hit you

You wake up screaming
Frightened by memories

You're plagued by nightmares
Doomed to haunt all your dreams
You barely survived, escaped our last show
Once you're in, oh we'll never let ya go!

You wake up screaming in your sleep
You're plagued by nightmares in your dreams
You barely survived, escaped our last show
Once you're in, oh we'll never let ya go!
