

## Frustration

### Crime

Frustrated and ya shoot it up my way  
Transfusion when you're movin' down a highway  
Love the way ya scream and cheat and beat your guitar  
Everybody says you've taken it too far

Well

Frustrated baby I'm gonna move on you  
Frustrated honey and I know what 'cha do  
I see your face nearly every day  
All you hippies can fade away

Double trouble for Mad Dog Colonel  
Philadelphia and you do the stroll  
Seen ya in your alley Mustang Sally  
Take you home and they shoot you up

Well

Frustrated baby I'm gonna move on you  
Frustrated honey and I know what 'cha do  
I see your face nearly every day  
All you hippies can fade away
