

Living in the U.K. is a lot of fun  
The cops don't even carry guns and if you're innocent, there's  
no need to run in the U.K.  
Black and white are treated the same  
You never get picked on if you've got a funny name and you neve  
r get beat up in the tube trains in the U.K.

In the U.K. things are getting tight  
But they still say we've got consumer rights  
Yeah in the U.K. I'm gonna stay  
To tell you the truth I can't afford to run away

From the U.K.
