

# Technophiliac

Crisix

Unconscious tendencies drive us  
Isolated by a legal drug

Our feelings make us believe  
"Now we're living in the land of the free"  
And we have all under control  
It's hard to realize  
We are the victims of an unlimited gossip  
Sharing our lives with complete strangers

Share, share, share and like  
Actions that consume our time!  
Follow, follow, follow! Hype!  
The only way to feel alive  
Ignoring consequences

Check it... Check it out!  
Check it... Check it out!  
We're sharing the disease  
Check it... Check it out!  
Check it... Check it out!  
Give it all to me

Technophiliac! Technophiliac!  
Our eyes on the screen  
We're begging it too feed us  
Technophiliac! Technophiliac!  
Real world is never enough  
Always connected

Our vanity make it so real  
Sweet sensation that we need to be here  
Current meaning of our lives  
Addiction and consume, a new religion  
Fucking our minds day after day  
Maybe it's too late to find a way out

Check it... Check it out!  
Check it... Check it out!  
We're sharing the disease  
Check it... Check it out!  
Check it... Check it out!  
Give it all to me

Technophiliac! Technophiliac!  
Our eyes on the screen  
We're begging it too feed us  
Technophiliac! Technophiliac!  
Real world is never enough  
Always connected

Log out!  
Isolation and damnation!  
Trapped in the network  
Pre-Chorus

Technophiliac! Technophiliac!

Always connected
