Drag

Cross Canadian Ragweed

Blame me if you wanna blame me Hang me if you're gonna hang me Damn me if you're gonna damn me Don't drag me along

What's up? I know what you're thinking
Times up, I feel this thing is sinking now
You crack up every time you're drinking
Don't drag me along
Don't drag me along

Don't drag me along
(Stop dragging me)
Stop putting me on
Don't drag me along
(Stop dragging me)
It's the same old song
Don't drag me along

And this thing, it's got its share of glitches I feel it's headed for the ditches down Back-talking dirty sons of bitches Don't drag me along

And deadly, but still you try to save me You're crazy to ever try to play me now Lady, lady in the waiting Don't drag me along Don't drag me along

Repeat Chorus 2x
