

# The Deep End

Crossfade

I built my life like my bike on a rigid frame  
So nothing bends it only breaks into pieces and pieces  
I waited for hope to arrive but it never came  
Leaving me with only pain inside  
I'm going off the deep end

I built my life on a rigid frame.  
So nothing bends it only breaks into pieces and pieces.  
I waited for hope to arrive but it never came.  
Leaving me with only pain inside.  
I'm going off the deep end.

Holding on is harder than it seems  
When you're reaching for so much more  
Seems so much easier to just give in  
When you're reaching for so much more

Another wasted Saturday so here I stay  
Where nothing seems to ever change anyway hey  
All this hype about life bein' great  
Where's the love for me these days  
I'm goin off the deep end

Holding on is harder than it seems  
When you're reaching for so much more  
Seems so much easier to just give in  
When you're reaching for so much more  
(2x)
