

# Destroy

Crossfaith

Hold on despair  
And fasten your seatbelt  
Hold on despair  
Now we destroy your power

Destroy  
With one resolution  
All powers that be  
Expose the illusion  
The walls in front of me

Surrounding us they built the empire of hopeless  
Constantly this city breeds and spits out the sickness  
(Now) It's time to wake  
(Now) We arm our faith  
Now, or live afraid

Destroy  
Your sick constitution  
The lies in my head  
We're part of the cycle  
To rebuild life again  
I'm not a victim anymore  
This broken system I'll choke and drown

Can not stop me with the chains on  
Come back hawking with a chainsaw  
Release anger with the pains gone  
Eye then unleash turn the flames on  
Danger in the eyes  
Danger in disguise  
Danger fills the void, the system built for you to lie  
How you gonna make me?  
How you gonna break me?  
How you gonna cage the truth when danger's in the sky

Tied in golden chains  
Put upon myself  
Terminate the shackles I made  
So sick of being enslaved  
Destroy yourself  
And take control of your fate  
Destroy  
With one resolution  
All powers that be  
Destroy  
I'm not a victim anymore  
This broken system I'll choke and drown  
I'm not a fucking victim anymore  
My eyes are open, I won't back down
