

# Devil's Party

Crossfaith

This is the devil's party

Now I can see my body fade to gray  
I can't even tell you if it's night or day  
When I feel my senses take over they crawl through my body  
A heavenly hell I'll stay

And I'm going down down down  
But never hit the ground ground ground

Tell me everything is fine  
Tell me everything is wrong  
Can you hear me out (here me out)  
Can you hear me out  
I'm drowning alone

Wake me from the dream that I had today  
Yeah just like sleeping in reality  
I can see that you tried to fix me but I keep refusing  
A shadow standing over me

And I'm going down down down  
But never hit the ground ground ground

Tell me everything is fine  
Tell me everything is wrong  
Can you hear me out (here me out)  
Can you hear me out  
I'm drowning alone

Yeah I am drowning alone  
Underwater can't keep running away from the pressure  
Suffocate everything  
Pull me out from the despair now

Tell me everything is fine  
Tell me everything is wrong

Tell me everything is fine  
Tell me everything is wrong  
Can you hear me out (here me out)  
Can you hear me out  
I'm drowning alone  
(and I'm going down down down)  
Can you hear me out (here me Out)  
Can you hear me out

This is the devil's party
