

# Endorphin

Crossfaith

(Kids want a new acid...)  
(Kids want a new acid...)

I fill you up with emptiness  
That will never ever reach to full  
The pain stays endless  
It's over and over and over again

Endorphin  
Endorphin  
Endorphin  
Endorphin

You feel the guiltiness  
From the scar growing in your skin  
Disease brings the filthiness  
It's over and over and over again

Endorphin  
Endorphin  
Endorphin  
Endorphin

Tell me where to go  
I can't find myself no  
Come and save me  
Tell me how to love  
Inside I'm gonna melt  
Come and help me

(Look at yourself, and get out of control...)

I don't know any places where I can find my soul  
Now right now  
My body gets numb and my heart gonna fall  
Can you  
Come and save me  
Will you  
Come and help me

Tell me where to go  
I can't find myself no  
Come and save me  
Tell me how to love  
Inside I'm gonna melt  
Come and help me  
Tell me where to go  
Come and save me  
Tell me how to love  
Come and help me

Come and save me  
Come and help me  
Come and take me  
Come and break me
