Gala Hala (Burn Down The Floor)

Crossfaith

Give me a spotlight Making me feel alive I wanna still fly All I can say is...

Now I wanna feel alive yeah This ain't no place to fake it Stay true like this is your last day Bring your 'a' game Keepin' it honest

Change your fate
Its up to you now
We're moving up to the frontline
Change your game
Give it up like you know what to do
And show me your flame!

Burn down the floor
With all you've got and take the mic kid!
Yeah! Spinning til sunrise
We bring the noise and start the riot
Burn down the floor
Let it all go dust off step on the dancefloor
Yeah make this paradise
We bring the noise and start the riot

Instigate it, dominate it
Shout out your deep desire
Decimate it, love or hate it
Let go! Let it all hang out
Infiltrate it, come and take it
Cry out your deep desire
We bring the noise and start the riot
You know we're never gonna stop

We're flowing lightly our bodies will travel And gettin' our buzz on without any trouble Clap clap gonna take your hands up Burn down the floor again

Fire come to the place that you wanted So we need to heart that your scream Says yeah! (yeah!) Oh yeah! (yeah!) You don't have time so Show me your brave

Don't you see yourself flying high Oh I touch deep inside your spirit You better do anything that you want Until the death calls me
We never want to be a fake
And we are gonna burn a floor
Burn the floor!...
