

Inside The Flames

Crossfaith

Let's go

Locked in a prison of your past
Yeah you're trapped inside a cage
Waiting for a sign but you're counting the days

Don't be afraid to testify (Get out)
Don't be afraid to testify

Now, you gotta try and get off the floor and
Now, we're screaming "I won't be ignored!"
Now, there's no one left to stand in your way
Just you versus you today

So tell me are you here to save yourself?
Do you care if you escape? (You escape)
Sometimes you gotta walk your way through hell
Find your voice inside the flames
You'll find yourself inside the flames

Hiding won't save you now
You gotta crawl in the dark to find your way
Break all the chains tonight
Cause you can not be someone else
All you can do is be yourself
Hiding won't save you now
You gotta crawl in the dark to find your way
Break all the chains tonight
Cause you can not be someone else
Rise! Fall! Rise!
Rise! Fall! Rise!

So tell me are you here to save themselves?
Do you care if you escape?
Sometimes you gotta walk your way through hell
Find your voice inside the flames
So tell me are you here to save yourself?
Do you care if you escape? (You escape)
Sometimes you gotta walk your way through hell
Find your voice inside the flames
You'll find yourself inside the flames
(You'll find yourself inside the flames)
You'll find yourself inside the flames
