

## To Build a Mountain

Crowbar

Don't be the slave  
Don't let your weakness show  
To build a mountain takes a long, long time  
Use what you've learned like a catapult  
And load the cannon when you need to fire

I know the way you feel  
It's time to take the step

Don't walk away  
Don't let your weakness show  
It's such a journey to the promised land  
When you arrive learn to take control  
And do your living by your own command
