

I Know A Ghost

Crowder

There's still neon in these paints
There's still an echo in these veins
It's the past and I've been haunted
By the things I thought I wanted
I never should have wandered
I let the Devil get the best of me
When oh, my God's paid a debt for me

Now to turn this house into a home
It's the only thing that rattles bones
He went to Hell and back to leave us his own
Now I know a Ghost
Now I know a Ghost
Now I know a Ghost

I know a Ghost
I know a Ghost

There's still darkness on this plain
There's still a heavy in these chains
Why I carry them around
I don't know, 'cause I've been found
Their wills torn from top down
Now I know a Ghost

I know a Ghost
I know a Ghost
I know a Ghost
