

Once

Crown Of Glory

Life changes so sudden
We'll never quit working on our dream
We'll grab fate by throat
Because it shall never drag us down

Time works for those who believe
One day we'll pay our dues
No!
There is nothing on earth that keeps us away
From trying

Come hell or high water
Next time we just try a little more
No one's born a master
A single stroke won't fell an oak

Once is not enough
Make it or break it
Soon we're gonna find out
Get up and stand your ground
I swear we'll never give up
Without fight

Don't waste your chances
Till the task is done, the quest complete
Hard work will pay off
And life's always worth another try

Advices
Your choices
You try to build your dreams
Just three things
That help you
Your mind
Your heart
Your hands
