

Eyes Wide Open

Cruadalach

We know what to do when we are born
We forget everything by, by the time
We can't remember of our life
If you realize the fact I beg you to, don't
I beg you remember
Don't repeat same mistakes
Senses are what matter
Open your eyes

I know, I know I can feel again
Reborn
See if, see if you can too

We know what to do when we are born
We forget everything by, by the time
We can't remember of our life
If you realize the fact I beg you to, don't
Open your broad senses
Cause that's what really matter
To feel like a human
To feel it by all means
Don't close your eyes
So you can feel much better
This is the way you will realize

I know, I know I can feel again
Open your eyes
Reborn
See if, see if you can too
I know, I know] can feel again
Open your eyes
I feel, see if you can too

Open your senses
Cause that's what really matter
To feel like human
To feel it by all means
Don't close your eyes
You will feel better
This is the way you will realize
