

They were fighting, last man standing
They won't surrender homesick put them down
For our freedom, they did well
Never had a chance to say goodbye

Take me, take me home take me
I want you to make me, I want you to
Make me feel
I feel, I want you to be mine, I want you to feel
I want you to set me free

In those times, they set us free
We give them tribute - for who we are
Every day new tyrants rises
Will this shit ever end?

Take me, take me home take me
I want you to make me, I want you to
Make me feel
I feel, I want you to be mine, I want you to feel
I want you to set me free

We are the one to blame
Things didn't change
Remember brave ones, behave ourselves
Rudeness will be cause of our fall

With new freedom, new tyrants came
Other brave rise and they disappear
Hope new era will become
No place for hate after-all

Take me, take me home take me
I want you to make me, I want you to
Make me feel
I feel I, want you to be mine, I want you to feel
I want you to set me free
