

## Down & Dirty

Crush 40

What you gonna do  
When it's inside of you  
Wake it up and let it out  
Put it on and scream and shout  
You know, you know, you know, you know  
It's all you can do  
With a little bit of this and that  
Did it make you feel better now?  
Wake it up and let it out  
Put it on and scream and shout  
You know, you know, you know, you know  
It's all you can do

(Well I know) I met the man in the mirror  
(I can see) He's so glad to see you  
(And I know) You wanted it way down

I want, I want, I wanna get it  
Down and dirty, down and dirty  
Shake me up, wake me up  
Girl, you know I'll always be  
Down and dirty, down and dirty  
Hit me up, hit me up  
Give me some of that down and dirty...

What you gonna do  
When it's inside of you  
Wind it up and let it go  
Rock that baby even more  
You know, you know, you know, you know  
It's all you can do

(Well I know) I met the man in the mirror  
(I can see) He's so glad to see you  
(And I know) You wanted it way down  
(Well I know) Don't let the feeling fear ya  
(I can see) I'd be glad to heal ya  
(And I know) You wanted it way down

I want, I want, I wanna get it  
Down and dirty, down and dirty  
Shake me up, wake me up  
Girl, you know I'll always be  
Down and dirty, down and dirty  
Hit me up, hit me up  
Give me some of that down and dirty...

Down and dirty, down and dirty  
Shake me up, wake me up  
Girl, you know I'll always be  
Down and dirty, down and dirty  
Hit me up, hit me up  
Give me some of that down and dirty...

(G-get, g-,get, g-et, g-get down)

Woah yeah!

Down and dirty, down and dirty  
Shake me up, wake me up  
Girl, you know I'll always be  
Down and dirty, down and dirty  
Hit me up, hit me up  
Give me some of that down and dirty...  
Down and dirty, down and dirty  
Shake me up, wake me up  
Girl, you know I'll always be  
Down and dirty, down and dirty  
Hit me up, hit me up  
Give me some of that down and dirty...

Yeah, yeah, down and dirty  
G-get, g-,get, g-et, g-get down
