

Green Light Ride

Crush 40

I can feel it now
Together movin' on
We've got the strength we need
And we're feeling strong

We'll keep a heavy hand
We hold a leaded foot
Our eyes on the prize
As we're passing you

And there's no better feeling
Than to be here with you—with you!

(Look out!) (Blast off!)

We're one together
On this green light ride! (Blast off!)

Drive through forever
On this green light ride!

Got the power we need
We're the fire you feed
It's in our heart and soul
We stand for somethin'

To the end we go
We know you had enough
Our inner strength will prove
You're not so tough

And there's no chance we're losing
And I'm right here with you!

(Look out!) (Blast off!)

We're one together
On this green light ride! (Blast off!)

Drive through forever
On this green light ride!

(Look out!) (Blast off!)

(Whoa-a-a oh!) Keep a heavy hand!
(Whoa-a-a oh!) Keep movin' on

Green light ride!

You need a little more
A little push and fight
Can you feel our fuel as
We ignite!

(Whoa-a-a-a oh yeah!)
(Look out!) (Blast off!)

(Whoa-a-a-a oh yeah!)
(Look out!) (Blast off!)

I can feel it now
Together movin' on
We've got the strength we need
And we're feeling strong!

There's no better feeling
Than to be here with you!

(Look out!) (Blast off!)

We're one together
On this green light ride! (Blast off!)

Drive through forever
On this green light ride!

We're one together
On this green light ride!

Green light go!
