

Song Of Hope

Crush 40

I can't believe
Just what I see
Even though you're staring back at me
This can't be true
Maybe make believe
It's so impossible the things in front of me

Time stands still and tears fall like rain
I'm holding on to anything
To anything and everything

Sing for hope
Sing for dreams
Stand together that's what it means
Sing for love
It's all I can do
This is a song of hope for you
I sing it for you, you
I sing it for you

Lend me your hands
Lend me your voice
Lend me your ears to hear the silence and the noise
Shine down on me
Shine down on you
Just lean on fate for greater things this can do

We'll pay the strong road winding down from where we've been
Holding to anything
To anything and everything

I can feel your fear
Yeah I feel it
Knowing you're not alone
Hope you feel it in my voice
and with my voice
I'll sing for you, for you

[Solo]

Song of hope
Song of dreams
That's what it means, that's what it means
Sing for dreams
Stand together that's what it means
Sing for love
It's all I can do
This is a song of hope for you
I sing it for you
Sing it for you
I sing, I sing, I sing
Song of hope for you
Song of hope for you
