

# Spidersong

Crush Luther

I want to be wherever she may go  
And I will dress her favourite way  
I want to be her best, best boy  
So I would kill myself to stay  
And I would always be her world  
And I would always be her world

And she's a spider I'm a butterfly  
And she might kill me but at least I tried  
She said you can't have me, but I want you badly  
And I will wait right here but she don't care

Best that I would take myself home  
Best that I would but I can't say so  
Cause there's this vision that I have where I try to do that  
And I collect myself but I can't quite go  
And if she leaves me here for dead  
Well then I guess that's what she did

And she's a spider I'm a butterfly  
And she might kill me but at least I tried  
She said you can't have me, but I want you badly  
And I will wait right here but she don't care  
She said you can't have me, but I want you badly  
And I will wait right here but she don't care

If she don't want to then she don't want to  
And some girls just don't make you feel like they want you  
But my girl, she won't ever be that way
