

# When We Were Golden

Crush Luther

Wait my people what's the matter with us now?  
Got no money, no looks, no know how  
Used to pay for nothing, got everything free  
When we were golden, when we were golden  
Now just you wait 'til we can't do nothing right  
And we get too tired and we don't even play outside  
Used to wake the day with a smile on  
When we were golden, when we were golden

Those were better days, those were better days  
As so you don't forget yourself, oh no, oh no  
Those were better days

Wait my people now we're thinking much too small  
And now we're working at, instead of burning down, city hall  
Just try and forget so you can feel better about what you got  
'Cause what you got is what you got anyhow  
Oh my people we should just do better right?  
Don't get to see the day, can't even stay up at night  
We used to think so big  
Then we forgot about when we were golden  
When we were golden

Those were better days, those were better days  
As so you don't forget yourself, oh no, oh no  
Those were better days

Those were better days, those were better days  
As so you don't forget yourself, oh no, oh no  
Those were better days

Wait my people what's the matter with us now?  
Got no money, no looks, no know how  
Used to pay for nothing, got everything free  
When we were golden, when we were golden
