

Tease Me

Crush

1.verse

Times under melodies
Strange enough for a dream
For a harmony
A song to sing for you
Funky aphrodites
All you need is life

Chorus:

And before you know
She will get you
Under the wing
She will hover
Light as the wind
She will rein you

2.verse

You are the heroines
Of this age
True to adrenaline
And terylene
Cool

Chorus:

And before you know
She will get you
Under the wing
She will hover
Light as the wind
She will rein you

Bridge:

She won't feel a thing
You'll take care of it
You will remember these times

Chorus:

The heart weights a ton
But she will hover
Light as the wind
You will love her
More than you should
She'll contain you
Under the wing
She will rein you
Wait, we were a family of this age
