

Knights of the Sky

Cryonic Temple

I can't believe this pain never ends
In war it's always the same
I see the horizon painted in red
My enemies will soon fall dead

Flying in the skies with you in my sight
My son, we will finally fight
Form a line at the edge of the sun
I hear the sound of a roaring gun

Saving you is in my mind
I don't care if I die

Be afraid of what's to come
We are the knights of the sky
Soldiers of the universe

Be afraid of what's to come
We are the knights of the sky
Soldiers of the universe

I see the fight I will win I can feel
My hope lies with wings of steel
I watch the heaven burn in flames
Kill or be killed no time for games

Screaming out loud of pain and fear
I hope I will see you, my dear
Heaven and hell is all the same
Am I the only one to blame?

Saving you is in my mind
I don't care if I die

Be afraid of what's to come
We are the knights of the sky
Soldiers of the universe

Be afraid of what's to come
We are the knights of the sky
Soldiers of the universe
