

# Loneliest Man in Space

Cryonic Temple

At the end of life I find myself  
Broken and alone  
I tried so hard to find my way  
Lost in silence

The stars will guide me to my final rest  
Who will remember me?

Am I the loneliest man in space?  
Drifting away for eternity  
I am the loneliest man in space  
Lost my love and family

Maybe I am the failure that  
You said I would be  
At least I tried to make it right  
But I lost everything

The stars will guide me to my final rest  
Who will remember me?

Am I the loneliest man in space?  
Drifting away for eternity  
I am the loneliest man in space  
Lost my love and family

Am I the loneliest man in space?  
Drifting away for eternity  
I am the loneliest man in space  
Lost my love and family

Am I the loneliest man in space?  
Drifting away for eternity  
I am the loneliest man in space
