

Pain and Pleasure

Cryonic Temple

In the darkest hour
Oh, my time has come
Pain and satisfaction
Feel the rush in my blood

See me now!
Crush my skin!
Call me king!

Feel me, take my hand and
See me crushing my own body

The king of pain is who I am
Hurt me once again
See the wounds across my skin
Pain and pleasure!

Carving the knife deeper in
Please set me free
I don't even know my name
Pain and pleasure!

In the final hour
I can see so clear
Nothing ever happens
To the world I once knew

See me now!
Crush my skin!
Call me king!

Feel me, take my hand and
See me crushing my own body

The king of pain is who I am
Hurt me once again
See the wounds across my skin
Pain and pleasure!

Carving the knife deeper in
Please set me free
I don't even know my name
Pain and pleasure!

Ooh pleasure!

The king of pain is who I am
Hurt me once again
See the wounds across my skin
Pain and pleasure!

Carving the knife deeper in
Please set me free
I don't even know my name
Pain and pleasure!
