

Rise Eternally Beyond

Cryonic Temple

More than meets the eyes
Until we meet again
I got blood on my hands
Saving those in need

Reaching out to the sky

Too many years have passed
Feel of peace was long ago
The loneliest man is me
Drifted far too long

Reaching out to the sky

Rise eternally beyond the astral skies
How many years since we last met
Rise eternally beyond the astral skies
How many tears since we said goodbye

Hallowed be thy name
As we fall from grace
Watching angels fall
From distant sky

Reaching out to the sky

Rise eternally beyond the astral skies
How many years since we last met
Rise eternally beyond the astral skies
How many tears since we said goodbye
