

## Just Went Black

### Cryptic Slaughter

Stricken by fear  
Feelings you generate  
Cries turn to laughs  
Laughter turns to hate

That's the way it is, never seems to change  
Minds were filled with hope, now are filled with rage

Scream all you want  
It won't go away  
It keeps coming back  
A laugh in your face  
Fight for your life  
And dig your own grave

So much hatred  
Knife in my back  
There is no one  
It just went black

They will tell you  
Life's not that bad  
Modern sucker  
It all went black

Death is their friend  
Someone on to rely  
Have you got a future  
Because your gonna die  
Breed us to kill  
Fill our head with lies

Hatred burns deep  
Eyes of our youth  
Rebellion at hand  
Catching up with you

That's the way it was, now it's time to change  
Minds are filled with hope, thoughts to rearrange
