

Celebration

Crystal Ball

Goodbye tyranny, it was time to break free
There's no pain - anymore, no more empty smiles
It was just a waste of time
So tell me that it's done - it's over

Can't you see the sun, it shines for everyone
Again for you and me - on and on

Celebration all over the nation
The fight for freedom and the right to defend it
Celebration all over the nation
You're free from fear and oppression

Nowhere quite like home, you are king on your throne
We keep the faith and independence
The sunbeams light the sky, don't let it pass you by
You're living your own - paradise
