

Let Her Go with Love

Crystal Ball

You held on to something
With your heart-guided hand
But it never stood strong though
Like a house built on sand

You see how her image appears
Up in the sky

Let her go, let her go
Don't hold her back
Let her go, with love
Let her go
And don't hold her back

Don't you look back in anger
Keep her warm in your mind
Don't you talk bad about her
Have try to be kind

You see how her image appears
Up in the sky

Let her go, let her go
Don't hold her back
Let her go, with love
Let her go
And don't hold her back

Let her go, let her go
Don't hold her back
Let her go, with love
Let her go
And don't hold her back

Let her go, let her go
Don't hold her back
Let her go, with love
Let her go
And don't hold her back
