## Let Her Go with Love

You held on to something With your heart-guided hand But it never stood strong though Like a house built on sand

You see how her image appears Up in the sky

Let her go, let her go Don't hold her back Let her go, with love Let her go And don't hold her back

Don't you look back in anger Keep her warm in your mind Don't you talk bad about her Have try to be kind

You see how her image appears Up in the sky

Let her go, let her go Don't hold her back Let her go, with love Let her go And don't hold her back

Let her go, let her go Don't hold her back Let her go, with love Let her go And don't hold her back

Let her go, let her go Don't hold her back Let her go, with love Let her go And don't hold her back **Crystal Ball**
