

Looking out the window  
On the train of life  
Rolling into the future  
Waiting to arrive

Crack life open have a look around  
Lots of goodies to be found  
Each new station is a novelty  
Break out from monotony

What is it worth all this you're hoping for  
Open the door

Liferider - find what you are looking for  
Liferider - it is time to explore  
Liferider - there's gotta be something more  
Liferider - deep down in your inner core

Living it up like a king uncrowned  
Don't you ever lose your ground  
No action hero no prodigy  
Write your own biography

What is it worth all this you're hoping for  
Open the door

Liferider - find what you are looking for  
Liferider - it is time to explore  
Liferider - there's gotta be something more  
Liferider - deep down in your inner core

Liferider - yeah - it is time to come alive

Liferider - you're the one who will survive  
Liferider - like a cat with nine lives  
Liferider - make it larger than life  
Liferider - it's time to come alive
