

# Magic

## Crystal Ball

Far in the distance  
A sign in the sky  
It shows me the way  
I'll be there one day

The place where you are  
It seems so far  
You holding the crown  
The crown of your own

I knew her wretched name  
And she drives me insane  
Lightning is so frightening  
She's playing ucanny games

You're magic, you're magic  
Your spirit is everywhere  
You're magic, you're magic  
There's something wrong in the air

I still pray for you  
There's nothing I can do  
I know that you're guilty  
I know that you're bad

Another day is gone  
The troubles just begun  
You've wished you were dead  
But you're still in my bedn  
I knew her wretched name  
And she drives me insane  
Lightning is so frightening  
She's playing ucanny games

You're magic, you're magic  
Your spirit is everywhere  
You're magic, you're magic  
There's something wrong in the air
