

Paradise

Crystal Ball

Drifting through the darkness
Feeling lost and down
When all else fails
Looking for a hand to hold

Doubts begin to creep
Poisoning the mind, eyes wide open
But heart and soul still blind

There's a silver lining
Way up high

Another way into paradise
Dark shadows left behind
Another way into paradise
Let the spirit enlighten the mind

The drive that you need
Heaven and earth can provide
There are millions of ways
To reach for the shiny light

There's a silver lining
Way up high
Where the stars are shining
And fill the sky

Another way into paradise, ...

Another way into paradise
Won't turn around
Another way into paradise
Let the spirit enlighten the mind

Another way into paradise

Another way into paradise, ...

Another way into paradise
Won't turn around
Another way into paradise
Faith, hope, love can be found
