

# Stranded

Crystal Ball

Scarlet snow is falling  
From the wounded sky  
A forsaken love is gonna die

All alone and knowing  
It's more than meets the eye  
I can't go on living this lie

Words can't describe  
The way I feel  
Is there a cure  
For my heart to heal?

I've been stranded on the edge of time  
Don't know why we are here  
Silent crying in the pouring rain  
Where is it all supposed to end?

The sunless sky  
Looks like a sea above  
I tried to turn the tide with love

Words can't describe  
The way I feel  
Is there a way  
For my heart to heal?

I've been stranded on the edge of time  
Don't know why we are here  
Silent crying in the pouring rain  
Where is it all supposed to end?

A guiding star  
So close but yet so far away  
Shining on for me  
To light my darkest day
