Glory Ride

Crystal Eyes

Raise the banner to the sky Saddle the beasts for battle now Play the tunes of war Mighty knights grab your swords and fight

Brothers of battle show your hate United we are the enemies fate Slaughter is our aim Blood will flow, heads will roll

We are the sons of evil The call of the wild We are the gods of war The great force of death

We're riding the glory war On and on we're fighting with honour and pride We are crusading now

Now it's time for victory No surrender , no retreat Across the battlefield Soldiers are raging tonight

Anger, hatred, agression, pain Behold the weak that won't remain Let the ground be covered With their blood and our pride Oh, oh, oh: we are crusading now
