

What You've Done for Me

Crystal Gayle

I gave you my dreams, you looked and you smiled
I knew I'd be stayin' for a long, long while

I gave you my heart, you held it in your hand
We'll never be apart now, because love never ends

Even though we both know it's over
Even though you tell me I'm free
As I love the world over
I remember what you've done for me

You made me laugh, you made me strong
Now I can feel all the love in this song
You made me laugh, you made me strong
Now I can feel all the love in this song
