Dangerous Ground

Crystal Lewis

```
I'm lookin' for a way out
Which way did I come in
Why do you find me taking your love for granted again
I didn't want to hurt you
Guess I always wanted to know
But now I'm certain that I would be a fool
To ever let you go
Cause I believe in you
Won't you believe in me

R:
Whenever I walk on dangerous ground
Whenever I lose my way
Whenever I call you're there to lift me up
Bringing me back in your arms
Once more

I'm making no excuses
I don't have the power I should
But being without you a moment longer
Would do no good
So tell me where I'm going wrong
I'm willing to make a start
Don't want to be the one who could ever break your heart
Cause I believe in you
Won't you believe in me
