

Satisfied

Crystal Lewis

Sitting in traffic too long
listening to my favorite song
watching all the cars go by
my mind wonders and wonders why

I can't drive a car like that
I can't have a little more cash
for a bigger house with much more room
for more leather jackets, hats and dresses
high-heel shoes

I bring myself back to reality
What was I thinking I have everything I need
I don't want for anything at all
I'm satisfied

Satisfied (love your life)
satisfied (laugh a lot)
satisfied (be content)
satisfied (with what you've got)

I've been given sweet salvation
forgiveness came and rescued me
I am wrapped up in redemption
I was guilty- now I'm free

I think about the air I breathe
I think about the song that I sing
I think of the friends and family
I think what I've got I like a lot it's all I need

Don't let this world trick you into thinking
you need what it's got to be happy
Satisfaction comes from something the world cannot provide
be satisfied

Everything we really need
from now until eternity
God already knows we need it
Oh, yeah my God already knows we need it

Stop your eyes from darting here and there
trust your desires to his care
His promises are true
