

# Without You

Crystal Lewis

Without you I don't know what I would do  
Without you I don't know what I would do  
Without you I don't know what I would do  
Without you

I'm all alone no friends can come out and play  
I need you to move me in your mystic way  
I open up the book and I call out your name  
Hoping that you'll hear me and you'll save me from my shame

When I'm all alone I let out my silent cries  
But in the midst of a crowd all they hear are lies  
I try to hide all my pain but deep down I know  
I need your love inside me I can't go on alone
