

## All I Want

Cuff the Duke

Here we are face to face'  
My mind goes blank  
I'll see the light  
As it fills your eyes

In time my heart  
Speak through what's left  
Of your embrace, compare it to the emptiness

It's you, all I ever want.  
Is you, all I ever want.  
Is you, all I ever want is you

How far in time  
Does it go before?  
The stars and road  
In tumble I grew slow  
I felt swells like the tide  
Same way every time  
And mark for days  
Until our love becomes a skill

It's you, all I ever want.  
Is you, all I ever want.  
Is you, all I ever want is you

All I ever want is you  
All I ever want is you  
All I ever want is you
