

Live My Life

Cuff the Duke

Decadence cool, you don't understand
They're frozen breath hovers over frozen land
I'd rather sit alone in the stair all day
Keep myself from fading away

I just wanna live my life in my own time
I just wanna live my life in my own time

You've always had a way of being way too sweet
But it's too cold outside, now it's starting to freeze
Haven't even seen you in at least a week
So I turn myself inside out to nothing, I drift away

I just wanna live my life in my own time
I just wanna live my life in my own time

Tied and alone and it's cold out here
I can hear the digging digging coming from somewhere
Haven't even seen you in at least a week
So I turn myself inside out to nothing, I drift away

I just wanna live my life in my own time
I just wanna live my life in my own time
