

# Always Forever

Cults

You and me always forever  
We could stay alone together  
You and me always forever  
So you'll stay, never to suffer

You know you've got me in your pocket  
You don't just have to wait around  
You know I keep you in my locket  
Just come here and we can settle down

You and me always forever  
We can stay alone together  
Heard you say things could be better  
Don't leave don't get away right now

You know you've got me in your pocket  
You don't just have to wait around  
You know I keep you in my locket  
Just come here and we can settle down

Oh darling it's the longing to think of us apart

You know you've got me in your pocket  
You don't just have to wait around  
You know I keep you in my locket  
Just come here and we can settle down

You and me always forever  
We can stay alone together (repeat)
