

# Suffer

Curtis Mayfield

Standing here alone  
Looking up to the sky  
Even the stars seem to be mated  
And I ask myself why  
I can't understand why  
I never made a play  
When you were so pretty to me in every way  
Why couldn't I see you were in love with me  
Why didn't I know just which way to go  
Now I cannot forget  
Standing here with the fear  
And now I must suffer  
Oh everybody know this woman I loved  
What will I become  
Loneliness gleams with the sun  
But dear for me I already see  
I don't want you away from me  
If only I wasn't so blind  
And gave you some kind of sign  
This might not have been  
Yes it's me standing out looking in  
Throw your heart out the door  
I guess I won't do it no more  
Now I got to suffer  
The woman I loved  
It seems sometimes in life  
You waste a sacrifice  
The lack of the love you show her  
Can show her the things right on out the door

Why couldn't I see you were in love with me  
This might not have been  
Yes its me standing out looking in  
Throw your heart out the door  
Guess I won't do that no more  
Now I got to suffer  
The loss of the woman I loved  
It seems sometimes in life  
You waste your sacrifice  
I don't know what come over me  
Just got to let it be  
Suffer  
I got to suffer  
Suffer  
Got to  
Got to  
Got to suffer  
Got to suffer  
Got to suffer  
Got to suffer  
Got to suffer
