

# This Love Is Sweet

Curtis Mayfield

This love is sweet  
This love is sweet  
Ooh ooh oooh  
Ooh ooh oooh

Things will never be the same  
Since I found you baby  
You've gotten over my chauvinist ways  
This love is true babe  
All I'm trying to say  
In some special way  
Some people mess around and be a player  
I'm jumping in with both feet

This love is sweet  
Even when you try and possess me  
Don't let me be gone too long  
I know that you will miss me  
Miss me, know you're gonna miss me  
Try to make it simple  
The bets that I can  
You're my kind of woman  
I got to be your man  
You're like a candy treat

This love is sweet  
This love is sweet

I cannot get enough of your lovin'  
Kissing and a-hugging  
Rubbing and tugging  
Do it all night, make it right  
This love is sweet  
This love is sweet  
This love is sweet  
This love is sweet

I tried to make it simple  
The best that I can  
You're my kind of woman  
I got to be your man  
You're like a candy treat  
This love is sweet  
This love is sweet  
This love is sweet  
This love is sweet
