

Love Child

Curved Air

Sleeping in the vagrant forest, dreamin' life was always like t
his,

Dewfall on our eyes, slowly do we rise,
Takin' in the day, I love you, Lovechild, I love you, oh

Walking through the timeless forest, scent of life warm all aro
und us,

Sunlight in our eyes, we're singing to the skies
Sacred our embrace, I love you, Lovechild, I love you, oh

Lovechild, you called my name, and here I am, I wander with you
Strange life, day by day, all on our own, hidden away
Strange life, led you to me, took me away to wander with you

Creeping shadows shroud the forest
Evening amber sunshine cools us,
Eating from the tree, and drinking from the stream,
Lyn' on the leaves, I love you, Lovechild, I love you, oh

Sleepin' in the vagrant forest, dreamin' life was always like t
his,

Eating from the tree, and drinking from the stream,
Sacred our embrace, I love you, Lovechild, I love you, oh

Lovechild, you called my name, and here I am, I wander with you
Strange life, day by day, all on our own, hidden away
Strange life, led you to me, took me away to wander with you
