

# Standing In The Middle Of The Field

Cut Copy

Find love, build it on sand  
Build it on bricks  
Build it on land  
Find love swinging in the wind  
Watching it some more  
Build it back again  
Find love lying on the shore drifting out to sea  
Lost forever more  
Find love strangest of thing  
But chaos inside  
Peace that it brings

Oh, Oh, Oh watch me slowly fall apart  
You've gotta give up the things you love to make it better  
Holding on but holding on is hurt  
You've gotta give up the things you love to make it better
