

# Fear Of Falling

Cutting Crew

Midnight, feels like it's shining on me  
Moonlight, taxis roll in from the sea  
Shots in the dark, slaves to the big city beat

Heroes, toasted and sent to the wall  
Zeroes, bleed you and laugh in your face  
My kind of town is anywhere else but this place  
But who can walk on the water?

I can help this fear of falling  
I can help this fear of letting go  
I can help this fear of falling  
I can help this fear of letting go

Hold on, check out and check out the fools  
Don't you, forget the, the golden rule  
Don't let them win  
Start making plans of your own  
'Cos you can get what you wanted!

I can help...
