

Drive my car

D.O.A.

Yeah, you pulled my wheels out of the mud
Yeah, you made me move on oil and blood
But sometimes I hit a real low gear
'Til I try to catch you in my rear view mirror

I try to watch the road
But I hit dead ends
So undo my seat belt
Before we crash again

I like the way you drove my car
Even if you drive me crazy
I'll meet you by the gas bar

You ripped me up and wrecked my car
And you nearly drove me crazy
I like the way you drive my car

Yea, I shifted through sorrow and pain
Right thru roadblocks and I'd do it again
But you turned me 'round, you made it good
And I know you liked what was under my hood

Then you made your pass
So I checked my map
I couldn't hit the brakes
Cos you were sitting on my lap

I like the way you drove my car
Even if you drive me crazy
I'll meet you by the gas bar

You ripped me up and wrecked my car
And you nearly drove me crazy
I like the way you drive my car
